

REMARKS

Claims 1, 4-13, 28-30, 37-39, 44-49, 54-66, 68, 69 and 79-82 are currently pending.

The Office Action rejected the pending claims (except for claim 79) under 35 U.S.C. § 112, asserting that the subject matter deleted from the claims was unclear. The lack of clarity was due to the fact that the claims contained structures and the deletion of these structures (as represented by a line) did not correspond line for line.

In an attempt to rectify this problem, Applicants have reproduced claims 1 and 69, and have drawn in lines by hand, where appropriate, to make clear the subject matter which has been deleted. Applicants have also added numbers to identify the elements of the markush group. Applicants have also moved the diamide member of the group from (12) to (11) so that the cyclohexane member is the last member of the markush group (as in claim 79).

In view of the above amendments, Applicants respectfully submit that the subject matter of the pending claims is clear. Accordingly, Applicants respectfully request reconsideration and withdrawal of the rejection under 35 U.S.C. § 112.

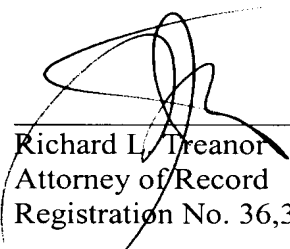

Application No. 10/517,390
